

NEBRASKA INVASIVE SPECIES ADVISORY COUNCIL

COUNCIL COORDINATION

Serves as a forum for discussion, identification and understanding of invasive species issues

COUNCIL OUTREACH

The public can use the free watercraft cleaning station at Lewis and Clark Lake thanks to the Nebraska Invasive Species Program and a grant from the U.S. Fish and Wildlife Service

Council members conduct public outreach and awareness of invasive species issues including:

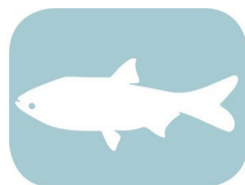

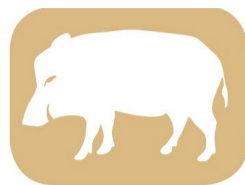

- Field tours
- Public presentations
- Media articles
- Providing brochures and ID guides

HOW CAN I PREVENT THE SPREAD OF INVASIVE SPECIES?

Visit neinvasives.com to learn how to identify invasive species and behaviors to prevent their spread

NEBRASKA INVASIVE SPECIES ADVISORY COUNCIL

Created by the Nebraska Legislature in 2012

WHAT DOES THE COUNCIL DO?

Coordinates invasive species:

- **Management**
- **Research**
- **Outreach efforts focused on early detection, prevention and invasive species management**

MANAGEMENT

RESEARCH

OUTREACH

Invasive species impact the economic and environmental well-being of natural resources. To minimize the impacts, the council recommends action to the Governor, the Legislature and stakeholders

WHAT CAN THE COUNCIL DO FOR YOU?

Experts can provide you with information for decision making, planning, and invasive species management and prevention recommendations

MEMBERS

Governor appointed representatives from federal, state and local resource agencies, industry and public interest members
